THURSDAY FEB. 11

FORESTRY EXHIBIT IS A HIT !

The exhibit put on by the forestry department here attracted a great deal of attention and favorable comment at the Florida State fair last week. The exhibit was an artistic model of the state park project on the Hillsborough river, which was designed by the personnel of the Forestry department. The miniature of the park showed the location of the pavilion, concessions building, cabins for all night visitors, the roads, trails, hanging bridges, and ponds. A miniature forest lent reality to the model. The exhibit at-

TENNIS COURT UNDER WAY

Ground was broken last Saturday for a much needed tennis court. The court will be located in front of the recreation building adjoining the road leading to the forestry office and the truck garage. The court was staked out by leaders Anthony and Sharp, and some grading was accomplished. Everybody hopes that this work will be pushed to a speedy conclusion as it is badly needed here, and will increase the appearance and sport facilities of the camp.

Plans are also under way for a boxing arena in the hol-

WHAT IS TO BE HOPED FOR? WHAT IS TO BE DREADED?

Most of the life of the American pioneer was spent out of doors. These pioneers walked long distances to their daily work. They ate simple but nourishing foods. They worked in the woods and fields with shovel, hoe and ax, usually from daybreak to sunset. Half of their leisure time was spent in outdoor games and sports—wrestling matches, log rolling, boxing, hunting and shooting, while at least part of the other half of their time was devoted to study. But the modern dyspeptic spends his free time at the movies, pool table, poker game, or at the radio listening to jazz. Now it is up to you!! You have every chance to develop yourself into a sportsman, pioneer, and gentleman, both physically and mentally. Now that you have every opportunity necessary to develop these qualities with the assistance of the Educational department. You are invited to the following

classes every week: Personal development, Spanish, Arithmetic, Typing, English, Woodwork, Physical Education and Hygiene, Sociology, Personal Hygiene, Etc. These subjects are topics of open discussion. As for athletics, you know that when you have worked for six hours without goldbricking you are partly dead, you have used up your energy faster than you have made it, you need recreation to cause your blood to flow faster in order to stimulate proper blood circulation and restore that loss of vitality. For this you should know that all athletic equipment such as boxing gloves, basketballs, bats, mitts, fencing equipment, etc. are at your disposal.

Many men and boys who work hard eight or nine hours a day in office, factory, or farm, are glad to improve themselves by taking night school courses, frequently two or three hours a night. You of Company 1418 should likewise be glad to take advantage of what facilities we have in order to improve your mental and physical equipment.

Boys, make this your motto!! MENS SANA IN CORPORE SANO!!

SPORT

GREEN DEVILS WIN TWO GAMES

Under Mr. Mac's excellent coaching, "The Green Devils" have won their first two games of the season. In the last game with Myalla the team showed an amazing reversal of form in not only beating a team they had previously defeated but also decisively before they had developed through practice and experience. With the cooperation of the players and the camp as a whole, the boys should go forward and stand a chance of being the best team in the district.

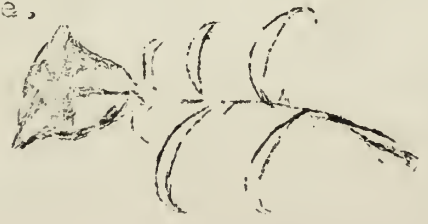

The team, under the leadership of Mac., seems to have developed a great deal of interest in the

team's progress, and they could do an excellent record in the future. They have been practicing at least three times a week, fair weather and bad (mostly bad) under the direction of Mr. Mac., leaving camp around six thirty and practicing until nine.

Boys, let's give these boys our loyal support, and watch them have the best team in the district.

DIAMONDBALL PRACTICE TO BEGIN NEXT WEEK

At last, boys, we have something to cheer about! Not only is our tennis court rapidly being pushed to completion but our baseball ground is to be cleared up for this season's practice. With the fine material in camp a first class baseball and baseball team should be developed. Warm weather is here and baseball is in the air. We should have a fine season, so when the call comes for baseball recruits for the team please answer more promptly than you answer the strains of revalla.

WEST TAMPA BOYS CLUB WIN OVER CAMP TEAM BASKETEERS

In the fastest game of the season the Tampa Club team got off to a 12 point start on the Camp team and emerged with a 28 to 25 victory.

The Camp team rallied and ended the first half with a score of 16 to 14, making 14 points while the Club boys made 4.

However the Club team came back the second half and played a consistent and even game. Considering the start, the two teams played an even game. The Camp team played a flashy game at times but seemed to have difficulty in adjusting themselves to a small floor.

The Camp team will "click" better and better with the progress of the season. A return game or more will be played on neutral floors and promises to be of keen competition, and splendid practice for both teams.

The Boys Club team played a smooth "clicking" game which is the result of playing together for years.

EXTRA !!! FIVE STAR FINAL

CRONIER CASHES CHECK

For the first time in the history of the local canteen Dick Cronier (is that Scotch) cashed a check. (The check was certified, was for one dollar and was endorsed by Lieutenant Wannamaker. (For any further information inquire at the Ed. office.

LAURAMORE GOES TO WOODPILE

BUNK Lauramore, for the first time in six months, had a little session with the woodpile because of a little dust that maliciously sneaked under his bed.

NOTE !!!

This is your paper, all writeups, sketches, and poems are avidly sought, so please send in whatever you may have. Send in your bit for the next issue. Your's for a real paper in Campany 1418. (Editor)

(Continued from Pg.1)
EXHIBIT A HIT

partment has been requested to lend the model to Orlando for the festival to be held there. The Forestry Department deserves praise for this work for it reflects credit both on their department and the local C. C. C. camp.

#####

TENNIS COURT UNDER WAY

TENNIS COURT UNDER WAY LOCATED HERE would allow the spectators, seated on the slopes around the ring, an excellent view of the bouts.

A series of bouts between boys of the camp, and perhaps outside boxers, would afford excellent entertainment for the members of the camp and would develop the boxers themselves, so we hope something will be done about this.

The recreation Department also hopes eventually to get some fencing equipment Douglas Morel, Ast. Ed. Adviser, has had considerable experience as a fencer, and should this go through, he hopes to help those who are interested to become proficient with the fencing foils.

AN IDEA

First aid Mc Dougal suggests that someone be assigned as special duty man to take care of the messkit water if for no other reason than to improve the sanitary conditions of the camp.

It is true that there is "plenty of room at the top" - provided the high altitude doesn't make your head swim.

entertainment by members of
a Transient camp, sponsored
Captain Edith Hickman of the
Aviation Army, was enjoyed
on Wednesday eve and by the
members of this Company,

The evening passed off without
 mishap, except that two benches
gave way in the middle of the
performance with loud crashes.
At the present rate everybody
will be sitting on the floor of
the recreation building. (Heaven
forbid!!)

GREETINGS!

One of the most outstanding Dia
mond ball players of the camp has
been elected as Captain, and man
ager of the team. The Eagle blas
phemy to announce the elec
tion of Cap. Robertson as the
new captain of the diamond ball
team. Cap. has had plenty of
experience in diamond ball play
both as a player and a coach.
He has coached several diamondball
teams through successful seasons
at other places and should do the
same here if given the proper sup
port by the team and the camp.
Cap., while slightly advanced in
years, is no slouch as a player
and as player manager should con
tribute more than a little to the
success of the team.

A TRIBUTE TO FLORIDA !

Florida---land of the flowers
And lakes of crystal blue
Songbirds palms, and breezes
and twilight's gentle dew

Paradise---garden of sunset
And sands of purist white
Waves and sails and shadows
And whispering, pale moonlight

Oh dream ---heaven of romance,
And song birds high above
Stars and clouds and raindrops
Enchanting land of love

be long before we are on a
par with some of our lead-
ing schools;

SO CO.1418 "TE
SALUTO !" (Lerom)

MR. FRENCH ADDRESSES CCC

Mr. Prentice French, landscape architect for the State Park Project on the Hillsborough river, addressed the members of the C. C. C. before the picture show last Wednesday night about the nature of the work in progress in the park.

Mr. French said that he expected to preserve as much of the natural growth as possible, and that there would be no attempt to "click it up." He said that he wished to keep the surroundings, ponds, trees, and stream, unchanged. A few winding roads and paths would allow the visitors to enjoy the scenery to the best advantage.

Mr. French also outlined plans for a concession building, where drinks and sandwiches would be served, cabins for the all night tourists, fireplaces and picnic grounds for picknickers, and a caretakers cabin. The project, as presented by Mr. French, sounds very attractive.

DANCE THROWN BY C. C. C.

The dance thrown here last Friday evening was quite a success. A number of the boys were on hand, not to speak of girls, and apparently a large time was had by all.

The general conduct was all that could be desired. There were no hard words, fist fights, knives drawn, drunkenness, or immorality, at least not inside the recreation building. What happened outside may be a different story, since it was a dark night, with little or no moon.

The hall was tastefully decorated from stem to stern by Douglas Morel of the Educational Dept., ably assisted by other members of the CCC. Numbers of red, white, blue, and green streamers were stretched diagonally from corner to corner. These, together with the varicoloured lights above, gave the recreation building an unusually festive air.

The music was furnished by the Tampanians, who played red-hot jazz until a late hour. This orchestra has become almost a habit, since they have played for the last four dances.

THE
